Introducing new product...golf swing right now!

2/15/2016

We absolutely LOVE this new product! Now you can practice your golf swing anywhere, and anytime, even in the office!

Got a boring meeting coming up?

Get ready for it by transporting your mind to the golf course while you swing the Golf Swing Right Now and practice your timing and technique.

It feels EXACTLY like swinging a real club but it is safe for indoors. It's only \$99.00 and will take the place of more expensive lessons and driving range fees! If you're a golfer you need this!
